

insole and counter

DATA SHEET

Tubox Reforço is a insole shank board, concept of a 100% recyclable and recycled polymeric blend, made up of a highly rigid recycled plastic laminate and a thin steel blade (steel core) positioned longitudinally to the center of the insole, which serves to provide firmness in walking and support the sole of the foot .

The Tubox Reforço It is a product of high strength and stability, this insole allows for an excellent finish on the chamfer and good formation of the cutting edge with a perfect finish on the cutter and the placement of the core in the assembly. It does not lose thickness, it is easy to form and, unlike cellulose materials, it has no smell. In contact with water, it does not delaminate, and has excellent adhesion. 100% Sustainable product made with Brazilian technology.

The Tubox Reforço insole can be applied in different constructions:

DESCRIPTION	TUBOX REFORÇO
--------------------	---------------

PRODUCT DATA

	<i>Thickness (mm)</i>
TUBOX REFORÇO 1.50 mm	1.50mm
TUBOX REFORÇO 2.00 mm	2.00 mm
TUBOX REFORÇO 2.50 mm	2.50 mm
TUBOX REFORÇO 3.00 mm	3.00 mm

* Range (±10%)

Quantity per package:	20 sheets (1.50mm and 2.00mm)	10 sheets (2.50mm and 3.00mm)
m² per sheet:	1,20 m² (± 0,02 m)

Tubox is manufactured by:

ADVANTAGES OF USING TUBOX

01

● RECYCLABLE MATERIAL

Plastic sheet made from hard-to-recycle composite materials for the footwear industry

02

● WATERPROOF

It has a great advantage over cellulose insoles, it is durable, waterproof and does not crumble. Making the shoe much more resistant.

03

● MOLDABLE THERMAL

Very resistant with a high degree of molding.

04

● SMELLESS

Even made from recyclable products has no smell.

05

● ECONOMIC

Cost-effective compared to cardboard and resin and reduce workforce and final cost of the resulting products.

06

● ACCEPTS STAMPS

In this way the customer can put his own identifications.

07

● REVERSE LOGISTICS

One of the biggest concerns of the Magma group is its commitment to the environment, for this reason, since the beginning of activities, the company seeks to minimize waste and environmental impact through the recycling of all plastic packaging produced by the Magma group factories and stores and the reverse logistics of our clients, as well as recycling waste from other industries.

CERTIFICATION LABELS:

100%
ENERGIA
RENOVÁVEL

The certification of the Witzler Esco Protocol for the Use of Renewable Energy and the Reduction of Greenhouse Gas Emissions (GHG) ensures that the certified organization uses, in its production chain, energy from a renewable source and with low GHG emissions.

eureciclo

The eureciclo LABEL guarantees that our brand invests in the development of the chain of recycling, through the environmental compensation of our packages
